PRODUCT PROPERTIES / APPLICATION AREA:

TOPSCRUB® SOFT is a skin cleanser with scrubbing agents for the thorough but gentle removal of medium dirt, e.g. oil, soot and greases. The high-quality surfactants in TOPSCRUB® SOFT have excellent skin compatibility. Moreover, TOPSCRUB® SOFT contains natural scrubbing agents made of olive seed powder but does not contain solvents. The perfume- and fragrance-free hand cleanser can be used safely for personal hygiene in the food industry in consideration of the respective application instructions.

APPLICATION:

Apply TOPSCRUB® SOFT evenly on the dry skin. Continue washing adding little water. Rinse off with plenty of water afterwards and dry thoroughly. For medium dirt, a small, hazelnut-sized amount is sufficient. A proportional bigger amount of paste has to be used in order to remove heavier dirt.
