Electric fires for Hospitality and Leisure

# Transform your hotel lobby into a warm and welcoming space with Virtuo Evolve.

## I am Virtuo Evolve: your perfect fireplace solution.

Hotel lobbies, bedrooms or restaurants can be transformed into warm and vibrant spaces by the addition of a DRU Virtuo Evolve electric fire.

It's just like a real log fire with a realistic, projected 3D flame picture, authentic logs and a glowing fire bed. It is cool to touch, so perfectly safe for public spaces and has a low carbon footprint and no harmful emissions.

It can be installed in false chimney breasts; room dividing walls and other architectural features and only needs a standard UK domestic electricity supply. There is a range of single-sided, 2-sided or 3-sided viewing options.

Operation is by convenient remote control or app for phones and tablets and there is a selection of flame effects and colours, with many more to download from the DRU app.

It all adds up to the most advanced and versatile electric fire for hospitality or home use.

This captivating electric fire perfectly compliments a luxurious seaside bedroom.
